Section 9: The pilot of an RC aircraft shall fly using the assistance of a camera or First Person View (FPV) only in accordance with the procedures outlined in AMA Document # 550.

Section 10: The pilot of an RC aircraft shall fly using the assistance of an autopilot or stabilization system only in accordance with the procedures outlined in AMA Document #560.

Section 11: Please take your entire trash home with you.

Section 12: Safety comes first. Every flyer and club member shall share responsibility for safety at the flying field. Bring unsafe conditions or actions to the attention of the Safety Officer.

Section 13: Flying is restricted to club members and their guests provided that they both have current AMA membership and any required FCC licenses and adhere to the AMA National Model Aircraft Safety Code. The guest cannot be a denied or terminated individual.

Section 14: Full-size aircraft have priority for airspace. Whenever you hear or observe a full-sized aircraft, which may be attempting to land, you must land your remote control aircraft immediately. Remain on the ground until you are certain of the full-sized aircraft's intentions.

Section 15: Cars MUST be parked in designated areas only.

Section 16: No consumption of alcoholic beverages is allowed before or during participation in any model operation.

Section 17: Aircraft must have owner's identification or AMA number affixed.

Section 18: Spinners or safety nuts are required on all engines.

Section 19: Flyers using gasoline engines must have an operational fire extinguisher on hand in accordance with AMA regulations.

Section 20: Engine break-in and/or full power run-ups are to be performed away from people. The aircraft is to be restrained by your helper or tied down.

Section 21: Normal engine start-up is to be done directly behind the flight line fencing. As an option, you may start your engine in the pit area and either carry the aircraft to the flight line or guide it by hand to the flight line. In all cases, your aircraft is to be pointed away from any place where people are permitted to be. The aircraft is to be restrained by your helper or tied down.

Section 22: Taxiing an aircraft through the pit area is PROHIBITED.

Section 23: Flyers may fly only from the pilot's box. They are to stand on the numbered circles to insure radio isolation. Only pilots, instructors and spotters are permitted to stand in the pilot's box. Spotters are highly recommended. No more than 4 model aircraft are to be in the air at one time.

Section 24: All aircraft take-offs (including hand launches) and landings are to be made ONLY on the active runway into the wind, in the direction of the arrow. There is only one active runway at a time. If more than one person is flying at any one time, all flyers are to fly the same flight pattern.

Section 25: There shall be no flying over the pits, spectator area, or any area where people are permitted to be. Also, there shall be no high speed flying TOWARD any area where people are permitted to be. All flying must be done in front of the active pilot flight line.

Section 26: All aerobatics and high-speed passes are to be done beyond the active runway and the extension of the active runway to the left and right boundaries of the flying field.

Section 27: While flying, let others know, LOUD AND CLEAR, of any potentially hazardous conditions, such as take-off or landing, engine failures, person or plane on runway, etc. Landings have the right-of-way over take-offs. Dead stick landings have the right-of-way over normal landings. After landing your plane, get off the runway as fast as possible.

Section 28: Each flyer is responsible for any damage he/she causes by not following the rules.

Section 29: No flying is permitted while the grass is being mowed.

Section 30: New flyers must successfully complete the Marion R/C Flyers Training Program before flying alone and/or providing instructions to others.

Section 31: It is not mandatory, but it is STRONGLY recommended that you do not fly or start your engine while alone.

Section 32: There are to be no modifications of set safety fencing at the flying field in accordance with AMA standards and guidelines. The safety fencing is to remain in place throughout the year.

Section 33: All new members and guests should be prepared to fly a demonstration flight in front of the safety officer or his/her designee.
